TOP MULTI LEVEL MARKETING TIPS

1

Read books + listen to podcasts about growing a business. Your success will never outgrow your personal development. Get into the right mindset and learn as much as you can about how to grow.

2

Don't try to reinvent the wheel. Be coachable and listen to your upline leaders and mentors for what to do to get started and to grow.

3

Get your face in front of a camera
People are interested in YOU and why YOU have started your business. It might be scary at first, but step outside your comfort zone and get talking!

4

Don't wait for business to come to you.
Consistently connect with new people and follow up with those already in your network! Don't rely on just posting to social media to drive business.

5

Treat your business like a business, not a hobby
Many people thinking starting a MLM business is easy because the heavy lifting is done for you (which is great!) but it takes time, effort, and consistency to build big. Treat it like a hobby, and it will pay like a hobby. Treat it like a legacy, and it will pay like an empire.
